

Biography:

DAVID G. LYNN, CSP, is a Senior Program Manager with the Corporate Health, Safety, and Environmental department at the Fluor Corporation based in Greenville, South Carolina. David enjoys sharing his distinct perspective on how his experience has impacted his approach to leading health and safety. Through a unique blend of work experiences with OSHA, Duracell, Owens Corning, and Fluor, David has witnessed the core of high performance safety cultures.

David began his safety career in 1992 working for OSHA as a Compliance Officer. As a Compliance Officer, David conducted over 200 inspections ranging from general scheduled audits to fatality investigations.

David's regulatory background enabled him to transition into an EHS Engineer's role at a Duracell battery plant in South Carolina. For 5 years, David successfully faced the challenges of leading injury prevention strategies with a large workforce in a high demand industry.

In 2000, David accepted the challenge to work for Owens Corning as an EHS Leader during the construction phase of a state of the art Cultured Stone facility in South Carolina. David managed EHS during the construction and start-up phases. Once the construction and start-up phase was complete, David remained as the EHS Leader until 2004.

In 2004, David accepted a position working with Fluor as a Corporate HSE Manager in Greenville, South Carolina. Fluor has a distinguished safety reputation, and they are recognized as being one of the world's safest companies in the engineering, construction, procurement, and maintenance industry. His primary role is to manage corporate HSE programs at Fluor.

David is a native of Greenville, SC and he graduated from Furman University in 1991. From the OSHA days to his current job at Fluor, David has been blessed with unique opportunities to learn, and he enjoys communicating lessons learned. David has had articles published in *Occupational Hazards Magazine (Playing to Win)*, *ISHN (3 Ways to Forging a Winning Safety Culture)*, and he has recently co-authored a book entitled *22 Ways to Become a Champion for Safety*.
